

KEYSOE
— ACADEMY —

Summer Activities

www.keysoe.com/diary

Make new friends, have fun and learn all about the equestrian life this summer at our Keysoe Academy. This new initiative will be running throughout August and offers young people the opportunity to get practical hands-on experience on topics such as Grooming, Field Management, Stable Management and Horse Health.

Horses encourage healthy living, education and fitness development. Getting children involved in horse programmes can build lifelong friendships and teach them lasting life lessons. The need for children to step away from their gadgets and spend time outside is greater now than ever before. At Keysoe Academy we teach responsibility, co-operation and good work ethic

through looking after our ponies.

There are magical things that can happen between a young person and a horse. Being around horses from a young age can build social and emotional skills like accountability, empathy, leadership and confidence.

Children will learn more about the tasks required in day-to-day care of our ponies who are very friendly and specially trained to handle and be around. It will be an exciting and active experience where the children will get muddy, have lots of outdoor fun and experience a sense of adventure, whilst making new friends. At the end of each course participants will be awarded a special certificate.

Summer Sessions

Grooming - 1st August

Hands on experience connecting with a pony

Anatomy - 3rd August

Discover how ponies work
